according to Regulation (EC) No 1907/2006

Date of issue: 23.04.2015 Valid from: 01.01.2015

Date of revision: 22.12.2022

**Dental waxes** 

Version: 5

Page 1 of 6

Printing date: 10.01.2023 Replaces Version: 4

SECTION 1: Identification of the substance/mixture and of the company/undertaking

**Product identifier** 

Tradename: Wax profiles, Wax wire, Perawax, Perawax NEM, TEK-1

WAX, Deiberit, MarmoScan-Wax

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses:

to be used in dental labs exclusively

1.3 Details of the supplier of the safety data sheet

Fax:

**ERNST HINRICHS Dental GmbH** Manufacturer/Supplier: Borsigstr. 1

Street / mailbox:

Country code. / postal code / city: Phone:

0 53 21 / 5 06 24 0 53 21 / 5 08 81

D - 38644 Goslar

E-mail / Website:

info@hinrichs-dental.de / www.hinrichs-dental.de

Further information obtainable from:

ERNST HINRICHS Dental GmbH

**Emergency telephone number** 

ERNST HINRICHS Dental GmbH: +49 (0) 53 21 / 5 06 24 (Mon-Fri. 8 a.m. – 4 p.m.)

**SECTION 2: Hazards identification** 

Classification of the substance or mixture

Regulation (EC) No. 1272/2008:

This mixture is not classified as hazardous in accordance

with Regulation (EC) No. 1272/2008.

2.2 Label elements

2.3 Other hazards: No information available.

**SECTION 3: Composition/information on ingredients** 

**Mixtures** 

Chemical characterization: Wax

**Further Information:** No information available.

**SECTION 4: First aid measures** 

Description of first aid measures

Following inhalation: Pure wax resp. wax not containing any kind of oil is showing

almost no vapour pressure when fluid, for that an inhalative absorption of any toxicologically concerned component can

be excluded.

Contact with molten/fluid product may lead to burns. Cool Following skin contact:

down with cold water immediately, if necessary treat wound

in a sterile manner, seek for medical advice.

Any absorption of paraffin components by means of skin

while the wax is solid cannot be expected.

Following eye contact: Rinse thoroughly with water, if necessary seek medical

advice (when wax is hot/fluid)

Following ingestion: Rinse mouth – no further measures necessary.

according to Regulation (EC) No 1907/2006

Date of issue: 23.04.2015 Valid from: 01.01.2015

Date of revision: 22.12.2022

**Dental waxes** 

Version: 5

Page 2 of 6 Printing date: 10.01.2023 Replaces Version: 4

Waxes can be applied as components of pharmaceuticals or food for this reason the question of absorption in the digestive tract after accidental ingestion is irrelevant.

4.2 Most important symptoms and effects,

both acute and delayed:

None.

4.3 Indication of any immediate medical attention and special treatment needed:

None.

**SECTION 5: Firefighting measures** 

5.1 Extinguishing media

Suitable:

Foam, dry powder, carbon dioxide (CO2), water spray jet.

Unsuitable:

Full water jet

5.2 Special hazards arising from the

substance or mixture:

In case of fire fumes are possible: carbon monoxide (CO).

5.3 Advice for fire-fighters:

Respiratory protection independent of ambient environment

- in case of fumes.

5.4 Additional indication:

Fire class: B:

Liquid substances or substances becoming liquid.

**SECTION 6: Accidental release measures** 

6.1 Personal precautions, protective equipment and emergency procedures:

Use personal protection equipment.

6.2 Environmental precautions:

Do not allow to enter into surface water or drains.

6.3 Methods and material for containment and

cleaning up:

Take up mechanically. Avoid dust formation. Collect in closed and suitable containers for disposal.

6.4 Reference to other sections:

See protective measures under point 7 and 8. Disposal: see

section 13

**SECTION 7: Handling and storage** 

7.1 Precautions for safe handling Advice on safe handling:

See section 8.

Advice on protection against fire and

explosion:

No special fire protection measures are necessary.

Further information on handling:

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and

vessels:

Store in a cool dry place.

Keep/Store only in original container. Protect against direct

sunlight.

**Hints on joint storage:**No special measures are necessary.

**7.3** Specific end uses: No further relevant information available.

according to Regulation (EC) No 1907/2006

Date of issue: 23.04.2015 Valid from: 01.01.2015

Date of revision: 22.12.2022

# **SECTION 8: Exposure controls/personal protection**

### **Control parameters**

Occupational exposure limits

Substance: paraffin: CAS-no.: 8002-74-2

Specification: Does not contain any substances - according to the

common EU lists - that have to be monitored at work

places.

Limit value type (country of origin):

Peak limitation: Toxic to reproduction:

Source (TRGS): DNEL- and PNEC- values:

Control-Banding (e.g. ILO, EMKG):

n.a. n.a.

n.a. n.a.

None. None.

8.2 **Exposure controls:**  Technical ventilation of workplace

Appropriate engineering controls:

Provide good ventilation.

Protective and hygiene measures:

Work in well-ventilated zones or use proper respiratory protection. Only wear fitting, comfortable and clean

protective clothing.

Wash hands before breaks and after work. Separate

storage of work clothes.

Eye/face protection:

Suitable eye protection:

Eye glasses with side protection goggles

Hand protection:

No special measures are necessary.

Skin protection:

Protective clothing.

Respiratory protection:

Particle filter device (DIN EN 143)

#### **SECTION 9: Physical and chemical properties**

### Information on basic physical and chemical properties:

Physical state: Solid, waxes in different shapes and colours

Colour: various

Odour: Characteristic, different according to type

pH-value: Not available Freezing point: < 50°C

not determined Melting point: Initial boiling point/boiling range: not applicable Sublimation point: not determined Pour point: not determined Flash point: > 130°C Evaporation rate: not applicable

Flammability: The substance is flammable, but does not intensify fires.

Upper/lower explosive limits none

Vapour pressure: not applicable Vapour density: not applicable Relative density: ca. 0,93 g/cm3 Solubility: Not soluble in water Partition coefficient n-octanol/water: not applicable Auto-ignition temperature: not determined Decomposition temperature: not determined

according to Regulation (EC) No 1907/2006

Date of issue: 23.04.2015 Valid from: 01.01.2015

Date of revision: 22.12.2022

**Dental waxes** 

Version: 5

Page 4 of 6 Printing date: 10.01.2023

Printing date: 10.01.2023 Replaces Version: 4

Viscosity: not applicable

Explosive properties: none Oxidising properties: none

**9.2** Other information: No further information available.

**SECTION 10: Stability and reactivity** 

**10.1 Reactivity:**No known unusual reactivity.

**10.2 Chemical stability:** Stable under regular conditions.

**10.3 Possibility of hazardous reactions:** No known hazardous reactions.

**10.4 Conditions to avoid:** Heat dissipation.

**10.5** Incompatible materials: Not designated.

**10.6** Hazardous decomposition products: Carbon monoxide, carbon dioxide.

**SECTION 11: Toxicological information** 

**11.1 Information on toxicological effects** When used appropriately no dangers to health are currently

known

Acute toxicity: No information available on systemic effects.

Skin irritation: Based on available data, the classification criteria are not

met.

**Eye irritation:** Based on available data, the classification criteria are not

met.

**Sensitisation to the respiratory tract:** Vapours have a very weak irritant effect.

Germ cell mutagenicity: Based on available data, the classification criteria are not

met.

Carcinogenicity: An extensive programme already realized in 1958 for

clarifying the absence of carcinogenic properties in pure waxes was followed by the admission as food ingredient.

**Reproductive toxicity:**Based on available data, the classification criteria are not

met.

Specific target organ toxicity (single

exposure):

Based on available data, the classification criteria are not

met.

Specific target organ toxicity (repeated

exposure):

Based on available data, the classification criteria are not

met.

Aspiration hazard: Not applicable

**SECTION 12: Ecological information** 

**12.1 Toxicity:**No information available

according to Regulation (EC) No 1907/2006

Date of issue: 23.04.2015 Valid from: 01.01.2015

Date of revision: 22.12.2022

**Dental waxes**

Replaces Version: 4

12.2	Persistence and degradability:	No data available. As to consistency and non-solubility, a bioavailability is very unlikely.
12.3	Bioaccumulative potential:	Not significantly accumulative in living organisms.
12.4	Mobility in soil:	No information available
12.5	Results of PBT- and vPvB assessment:	The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.
12.6	Other adverse effects:	Not hazardous to water - no further quantitative data on ecotoxic effects are available.
SECTION 13: Disposal considerations		
13.1	•	Contaminated packaging disposal Recycle according to official regulations.
	Waste codes / waste designations according to EWC / AVV:	No waste codes applicable.
	Special precautions:	None.
	Other relevant provisions for waste treatment national or EC:	Dispose of waste according to applicable legislation.
SECTION 14: Transport information		
14.1	UN-no.:	No dangerous good in sense of this transport regulation.
14.2	UN proper shipping name ADR/RID: IMDG-Code / ICAO-TI / IATA-DGR:	No dangerous good in sense of this transport regulation. No dangerous good in sense of this transport regulation.
14.3	Transport hazard class(es) / hazard labels:	No dangerous good in sense of this transport regulation.
	Transport nazara siass(ss), mazara nassisi	
14.4	_ , ,	No dangerous good in sense of this transport regulation.

# **SECTION 15: Regulatory information**

14.7 Transport in bulk according to Annex II of

MARPOL 73/78 and the IBC Code

14.6 Special precautions for user:

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture EU-regulations, e.g.: The product does NOT have to be labelled according to EC

directives/GeStoffV.

No dangerous good in sense of this transport regulation.

No dangerous good in sense of this transport regulation.

National regulations, e.g.:

Water contaminating class (D): - - not water contaminating

Other relevant regulations: TRGS 500, TRGS 510

according to Regulation (EC) No 1907/2006

Date of issue: 23.04.2015 Valid from: 01.01.2015

Date of revision: 22.12.2022

15.2 Chemical safety assessment:

**Dental waxes** 

Page 6 of 6 Printing date: 10.01.2023

Replaces Version: 4

Chemical safety assessments for substances in this mixture

were not carried out.

### **SECTION 16: Other information**

### **Abbreviations and acronyms**

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European

Agreement concerning the International Carriage of Dangerous Goods by Road )

RID: Règlement international conernat le transport des marchandises dangereuses par chemin

de fer (Regulations Concerning the International Transport of Dangerous Goods by Rail )

IMDG: International Maritime Code for Dangerous Goods

Version: 5

IATA: International Air Transport Association

IATA-DGR: Dangerous Goods Refulations by the "International Air Transport Association"

(IATA) ICAO: International Civil Aviation Organization

ICAO-TI: Technical Instructions by the "International Civil Aviation Organization" (ICAO)
CAS: Chemical Abstracts Service (division of the American Chemical Society)

GHS: Globally Harmonized System of Classification and Labelling of Chemicals

CLP: Regulation on Classification, Labelling and Packaging of Substances and Mixtures

LC50: Lethal concentration, 50 percent

LD50: Lethal dose, 50 percent

EC50: Effectice concentration, 50 percent

DNEL: Derived No Effect Level

PNEC: Predicted No Effect Concentration
PBT: Persistent, Bioaccumulative and Toxic
vPvB: very Persistent and very Bioaccumulative

#### **Further information:**

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.

(The data for the hazardous ingredients were taken respectively from the last version of the sub-contractor's safety data sheet.)
